## Brief History

Mr John C Gammon, a brilliant engineer from UK, was the founder of the Gammon Group of Companies in Bombay in 1919. He was pioneer of Reinforced Concrete Construction and the shell process, which subsequently used for construction of a large number of factories/ mills, Pre-Stressed Concrete Spans of upto 200 ft length, the concrete process was also based on Mr Gammons Patent which contributed in a large way to the success in laying of mass concrete foundations.

**Mr John C Gammon**

The exceptional engineering knowledge, dynamism and business acumen of Mr. Gammon was the main reason for the outstanding success of his construction companies in India, Malaysia, Pakistan, Bangladesh, Ghana, Nigeria, the Gulf and Hong Kong. GAMMON PAKISTAN LIMITED was incorporated as private company on the creation of Pakistan in August 1947 and converted into public Company in 1956.

With the vision to carry forward the legacy of the founding father in the field of PRE-CAST CONCRETE and to support the Government's vision of fast track and quality construction, The GAMMON PRE-CAST PAKISTAN was incorporated.

# Chairman's message

The skill, talent, and commitment of the Gammon Pre-Cast Pakistan team has been a crucial factor in our success and growth. Our employees are our most important asset and we continuously invest in their professional growth, meaning work-related training is always ongoing.

## **Lt. Gen. Retd. Ali Kuli Khan Khattak**

The professional needs and personal welfare of our employees are important to us. Our focus on these enables us to meet and exceed the expectations of our clients. A happy employee leads to a happy customer, which in turn leads to repeat business and higher revenue. Small wonder Gammon Pre-Cast Pakistan has among the lowest staff turnovers ratio in the industry, and 50% of our business comes from clients we have worked with in the past.

We are also cognizant of our responsibility in the field of concrete to the community and country that have given us so much. We are grateful for the opportunities that have come our way.

I earnestly hope the successful journey of Gammon Pre-Cast Pakistan serves as an inspiration to future entrepreneurs. My message to those reading these words is, "Seize the moment and the opportunity to excel in whatever you chose to do".

## CEO'S Message

With the grace of Allah, effort and continuous hard work of our team, GAMMON PRE-CAST PAKISTAN been able to build and to achieve a quantum leap in the level of providing products and services of concrete conforming to the highest standards of quality and efficiency that match their counterparts provided by major international companies, thereby enhancing its avant-garde as a group, industrial and economic leader that enjoy with reliability and excellence.

We are proud of our GAMMON PRE-CAST PAKISTAN team, which includes more than 80 employees with caliber and high level of expertise in various fields from administrative, marketing, engineering, technical, and financial, in addition to employment qualified and trained to the highest standards and international best practices.

**Muhammad Shahbaz Anwer**
